[@WDNYnews](#) [@FBIBuffalo](#) NYS Assemblyman [@DiPietro4NY](#), urged his constituents to "vote from home" back in 2016 on his public social media accounts.

The DOJ just announced the man behind the social media scheme, Douglass Mackey, has been charged with election interference stemming from actions in 2016

According to the allegations in the indictment, the defendant exploited a social media platform to infringe one the of most basic and sacred rights guaranteed by the Constitution: the right to vote,”

“There is no place in public discourse for lies and misinformation to defraud citizens of their right to vote,” said Seth D. DuCharme, Acting U.S. Attorney for the Eastern District of New York.

@WDNYnewsc should investigate this immediately and hold an elected official like [@DiPietro4NY](#) just as accountable for this disgusting attempt to undermine democracy and purposely disenfranchise voters?
